The Fernando de Noronha Archipelago is composed of twenty islands covering an area of 26km². The main island, and the only inhabited island, is called "Fernando de Noronha." The main island, 17 km² with 545km of beautiful coastline, has a population of 3,000 people. The habitants devised a system of "sustainable tourism," creating an opportunity to experience the balance between man and nature on one of the of the most important ecological sanctuaries of the world. With each passing year more Brazilian tourists, and tourists from around the world, seek out this tropical paradise, developing an alternative economy for the local population. The vast majority of the inns on the island are rustic and simple yet very comfortable, featuring amenities such as air conditioning, TVs, refrigerators, and private bathrooms. This brochure presents a few exceptional inns with excellent service and beautiful locations. Choose and relax, whichever inn selected in this tropical paradise will be marvelous.

(Included meals: breakfast)

Day 4: Fernando de Noronha - Santo Antonio

Day 5: Fernando de Noronha

Breakfast. Free day to relax and explore other beaches on your own. Overnight.

There are many beaches to choose from on the island. Some are better adapted to diving, others to swimming, contemplation, surfing, etc. In general, the beaches found on the protected side of the main island are ideal for diving and swimming during the months of April through November, due to the extremely calm sea. During the rest of the year, the changing conditions of the sea favor the sport of surfing, especially during January and February.
