This colossal site includes five plazas, an astronomical observatory and over 35,000 buildings that have been identified. The loftiest among them, a massive pyramid called Cana, capped by three temples, rises more than 140 feet above the jungle floor. After touring the site with a picnic lunch included we return to the hotel. On the way back we can stop and explore the Rio-On Pools and Rio Frio Caves if we wish to do so.

Day 3: Actun Tunichil Muknal Cave Adventure

Actun Tunichil Muknal ``Cave of the Stone Sepulcher `` is one of the most impressive caves in the Maya lowland. Located in the heart of the Belizean Rainforest, this cave was a sacred place to the prehistoric Maya of Belize, who first began to use the entrance during the early classic period (300-600AD).

The cave system consists of a series of chambers, ending in a 300 by 50 meter Cathedral where sacrificial ceremonies once took place. Visitors to this cave have the opportunity to travel into the Maya past and witness a living museum where the human sacrifices and artifacts can be viewed in their original context. On the tour guests will drive to the trailhead and trek for 45 minutes through dense Jungle in the Tapir Mountain Nature Reserve, wading across three streams and learning about the plants and animals of the Jungle.

At the entrance of the Cave guests are outfitted in the necessary equipment. Some swimming will be required and also climbing and caving activity. Guests will spend 3 hours in the cave after which they may also visit a nearby dry cave to see ancient inscriptions and handprints of which the origins are unknown. This is a first class caving and archaeological experience.
